

## **CNC (Computer Numerical Control) Profile Mill Operator**

---

**Location:** Sydney, NS

**Term:** Permanent, Full-Time (Days, Evenings; Some Overtime Required)

**Anticipated Start Date:** As Soon As Possible

### **About the Organization**

Established in 2001, **Protocase Inc** is a rapidly expanding company that focuses on combining advances in software with advanced manufacturing techniques to offer unique custom manufacturing to the engineering, design, and research industries. Using the expertise and dedication of 130 employees (and counting), Protocase is proud to have a client base of more than 12,000 customers throughout North America and around the globe. Customers include **Boeing, L3, Raytheon, Google, Apple, Microsoft, NASA, MIT** and many more.

To learn more about the company, visit <http://www.protocase.com>.

### **About the Opportunity:**

Protocase is currently seeking an experienced, reliable **CNC Profile Mill Operator** to join our **Production team** in the **fast-paced CNC Machining department** in **Sydney (Cape Breton), Nova Scotia**. Our customers – engineers, designers and scientists – depend on Protocase to quickly and accurately CNC machine custom enclosures, panels and parts.

As a member of the busy CNC team, you will operate and set up machines to perform repetitive machining operations, along with a variety of other duties to help keep the CNC department running smoothly:

- Enter codes specifying speed, feed and cut of the toolpath for CNC machine tools
- Read and interpret engineering drawings, blueprints, charts and tables
- Verify dimensions of parts machined using precise measuring instruments, including micrometers and calipers
- Document and report deviations from specifications and tolerances
- Perform routine maintenance on equipment and machinery
- Clean and maintain work space
- Maintain inspection records and complete inspection reports

**Essential Skills:**

Above all else, we are looking for candidates who possess a solid mechanical sense, as well as decent basic computer skills, as all CNC machining equipment is digitally controlled. A passion for CNC Machining would be a major plus.

Other qualifications required:

- Experience in CNC Machining would be considered an asset (full training will be provided)
- Keen attention to detail and commitment to accuracy
- Excellent oral communication skills
- Sense of urgency
- Effective interpersonal skills and a team-player attitude
- Ability to stand for extended periods in a noisy environment
- Own transportation
- Criminal record check
- Ability to lift up to 23 kg (50 lbs)

**About the Benefits:**

In exchange for your hard work and dedication, the successful candidate will earn a wage ranging from \$16.21 to \$18.27/Hour for 30-50 hours per week, plus a variety of benefits:

- Medical, Dental, Life Insurance and Group Insurance Benefits after six months
- Two weeks' vacation (three weeks' vacation at three years of employment; four weeks' vacation at five years)
- Cost-shared Company Pension Plan after six months
- Cost-shared YMCA Fitness membership after three months

Upon joining Protocase, you will find a supportive team that encourages professional development. The company often hosts seasonal BBQs, learning lunches and staff events.

Although our business is growing, our team remains supportive, inclusive and tight-knit. Continuous improvement has always underpinned our success and we actively foster an environment of open communication, creative collaboration and the sharing of ideas.

**How to Apply:**

- Email your resume to [employment@protocase.com](mailto:employment@protocase.com) (Please be sure to specify "CNC Machining Profile Operator" in the subject line)
- Drop off your resume at our main building – 46 Wabana Court in Sydney, NS, between 9:30 AM and 4:30 PM
